About Us

Skyline Spartans Lacrosse Club's mission is to be the premier lacrosse program in the state of Washington, recognized for athletes with high levels of competitiveness, exemplary sportsmanship, commitment to teamwork, and academic achievement.

Skyline is the reigning 2022 Washington State 4A champions, having previously won in 2017 and was runner up in 2018 & 2019.

We aim to serve student athletes in our community whose passion and desire is to play lacrosse and achieve their maximum potential both athletically and academically.

Student athletes participating in Skyline Lacrosse Club's training and competitive activities will enjoy the great game of lacrosse and appreciate the benefits of hard work, perseverance, ability to work as a team, and pride in achieving goals. Many of the most important learning experiences take place outside of the classroom and Skyline Spartans Lacrosse Club gives players the opportunity to test themselves against the best teams in their sport, through fair and honest play. Learning these lessons on the lacrosse field will lead our players to live better and healthier lives.

Our Program

Entering the 2021-2022 season, we were determined to safely welcome our players back on the field. We were pleasantly surprised to see several new faces and returning families for our Fall Ball programs. We operated our largest fall lacrosse season, ever, and our teams participated in indoor and outdoor leagues. Our fall season concluded with a competitive showing at the Space Needle Shootout across all ages.

During the spring season, our most significant program, we were able to return to play with 120 participants. With seven teams, ranging from Kindergarten through 12th grade, our student-athletes played a full season of games in the Greater Eastside Lacrosse League (youth) and Washington State High School Boys Lacrosse Association.

The highlight of our spring season was winning the 2022 4A State Championship, our second state title in program history. Varsity standouts Marcus Ball, Carter King, Hunter Neil, and Joe Vermeulen were recognized for their strong play and named to All King-Co teams.

Carter King was named a Washington State All-American for his dominant play on the field and Aidan Grace was recognized as a USA Lacrosse Academic All-American for his hard work in the classroom and on the field.

After the end of the school year multiple Skyline teams traveled to Bend, Oregon to compete in the Hot Shots Invitational, with our High School team winning the Elite Division. Additionally, we successfully operated multiple youth camps and drop-in games throughout the summer.

Our Alumni

The great tradition of Skyline Lacrosse can be seen within our decorated Alumni. Throughout their journey with us, they have made valuable lifelong relationships on and off the field. For many of these young men, they found new avenues and paths through the sport of lacrosse and their shared bond that was created over many years here at Skyline. We are forever proud of their commitment to Skyline and to one another.

Many of our Alumni remain active with the program and continue to give back to the Skyline community long after they graduate. A highlight for us every year is our annual Alumni Game, pitting our current Varsity players against former Skyline greats during the Holidays.
