

The Skyline Lacrosse Club offers sponsorship opportunities to companies and individuals who provide generous donations to support our lacrosse program. Sponsorship can provide your organization with valuable exposure and brand recognition across the Skyline Lacrosse community.

At the high school level, boys' lacrosse is not currently sanctioned by the Washington Interscholastic Activities Association (WIAA) and receives no funding from the high school. Therefore, all costs including field rentals, coaching, operations and equipment are the responsibility of the Skyline Lacrosse Club.

As a non-profit organization, we strive to ensure that participation in the great sport of lacrosse is available to all players from kindergarten through high school regardless of economic circumstances. Donations from corporate sponsors help the club to manage the cost of participation and provide financial scholarships to those in need.
